Summary

I love working with HTML, CSS, and JavaScript to bring designs to life and enhance the user experience. I have a strong understanding of web development principles and standards, as well as experience with a variety of front-end frameworks and libraries such as Reactjs, Tailwindcss. I stay up-to-date with the latest trends and best practices in the industry, and am always looking for new ways to improve my skills and knowledge.

Experience

Frontend Developer
Freelance (Self employed)

Feb 2023 - Present (6 months)

As a freelance Web Developer, I have had the opportunity to work with various clients, delivering high-quality front-end development solutions. Here is an overview of my work experience:

Collaborating directly with clients to understand their requirements and translate them into visually appealing and functional websites.
Developing responsive and mobile-friendly user interfaces using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and adherence to web standards.
Implementing front-end frameworks like Bootstrap or Tailwind CSS to streamline development and enhance the user experience.
Integrating JavaScript libraries or frameworks such as React.js to create dynamic and interactive website components.
Customizing content management systems (CMS) like WordPress or Shopify to provide clients with easy-to-use interfaces for content updates and management.

Web Developer
Zyber LTD

Jun 2022 - Feb 2023 (9 months)

As a Web Developer at Zyber LTD , I have played a crucial role in designing and developing responsive and user-friendly websites for a wide range of clients. My responsibilities include:

Collaborating with clients and project managers to gather requirements and translate them into technical specifications and functional solutions.
Creating website layouts, wireframes, and mockups to provide clients with a visual representation of their websites before development.
Implementing front-end web development technologies such as HTML, CSS, and JavaScript to build intuitive and interactive user interfaces.

Web Developer
Passiflora

Jan 2022 - Jun 2022 (6 months)

As a Front-End Developer at Passiflora Web Agency, I was responsible for transforming design concepts into visually appealing and functional websites. My role involved:

Collaborating closely with designers and back-end developers to implement user interfaces that aligned with project requirements and design specifications.

Writing clean, efficient, and well-documented HTML, CSS, and JavaScript code to build responsive and intuitive user interfaces.

Ensuring cross-browser compatibility and optimizing website performance by implementing best practices in front-end development.

Integrating front-end frameworks such as Bootstrap to streamline development and enhance user experience.

Incorporating dynamic elements and interactivity using JavaScript frameworks like React.js.

Conducting thorough testing and debugging to identify and resolve any UI-related issues or bugs.

Collaborating with the UX/UI team to provide input on design feasibility and user experience improvements.

Staying updated with emerging front-end technologies, frameworks, and trends to enhance the quality and efficiency of development processes.

Assisting in the deployment and maintenance of websites, ensuring smooth integration with back-end systems and proper version control.
